Report on

“Women empowerment”

Conducted by

Gender sensitization committee

For

Teaching and Non-teaching women faculties

Date:24/08/2021

The program began at 10.30 a.m. Our honorable Principal Dr. B.S.Venkestwaralu delivered welcome address with warm words and thought provoking message to the Participants Dr. S.Ruby introduced the speaker with inspiring words.

The speaker Mrs. Ruby Thiyagarajan's talk highlighted the significance of leadership and empowerment of women. The speaker explored how, when and where improve our leadership qualities and developing our empowering management. A very good interaction between the speaker and participants occurred during the session which shows the active participation of the faculties in the session.

The message conveyed in the presentation was optimal and informative. Mr. M. Saravanan, Research scholar, who accompanied the speaker provided technical support required for the presenter. Dr. D. Umamaheswari proposed heart touching vote of thanks with humble words.

The feedback from the women faculties about the program revealed that it was useful and informative. They also wished to have more of such programs to be conducted in the future.

5% on strengths, 20% on things and 5% on weakness

LEADERSHIP

Empowerment means people having power and control over their own lives.
 Five separate categories: social, education, economic, political, and psychological.
 It helps framework an employee's expectations sets goals to accomplish their main purpose work.
 The goal of empowerment is to provide information and permission for employees to address problems and move forward towards achieving company goals.
